Corporate Overview

Shiva Global Agro Industries Ltd. contributes towards achieving food security by helping farmers increase their crop yield through its products. An emerging leader in the agro commodities domain, the company manufactures Phosphatic fertilizers, Soil Health Conditioners, Oil and de-oiled cakes (DOC).

Our ability to translate our vision and strategy into execution and on-ground action has been a decisive factor in our growth story. Shiva is thus poised for growth based on its operational excellence, prudent business and financial practice and a unique agro-marketing outreach program. This has helped us to lay the foundation for a sustainable and inclusive agriculture growth in Indian farming.

Since R&D plays a key role in our business, human capital forms the backbone of our success in diverse segments where we have a presence. Our distribution network is serviced by a team of dedicated personnel who, along with our manufacturing and R&D teams, are among the best in business.

Looking ahead, we are moving into the next phase of our growth, which will be innovation-led and make a visible difference to farming practices in the future and enable farmers to get more yield per hectare of arable land.

Businesses

From the beginning Shiva Global Agro Industries Ltd. has striven to be the preferred partner of farmers by developing and manufacturing products that not only preserve the nutrient content in the soil but also ensure a bumper harvest. The company plays a vital role in meeting the ever-growing food demand in the country.
